

## About Resi

Having made our debut in the Australian mortgage market over 30 years ago, we've had the opportunity to help thousands secure the right loan to suit their unique circumstances. We take great pride in being able to help borrowers with a diverse range of needs.

Whether you are a borrower with a clean credit track record looking for best in the industry rates, are self-employed or a small business owner looking for a loan with minimal down payment options we are confident of providing you a solution that will precisely address the challenge you are facing.

Thirty years and many happy mortgage customers later we've emerged to become one of Australia's most trusted and award-winning non-bank lenders.

## Our History

We entered the Australian mortgage market at an interesting time of its history – during the 90s when the banking industry was de-regulated allowing non-bank lenders to become an exciting new lending alternative.

Ever since we've been contributing to the ever evolving and dynamic mortgage landscape with innovative products and services aimed at suiting specific needs of customers.

## Our Promise

We understand that each customer is unique. While most lenders take a digitalised approach to processing large application volumes, we assess each case based on individual merits and consequently suggest a solution that specifically works best for a borrower's current situation.

We therefore have a significantly higher approval rate and fulfil diverse customers needs including borrowers that get overlooked by most lenders on account of industry inadequacies.

With us you could be assured of long term, mutually beneficial client relationships based on honesty, reliability and trust – delivering the best solutions for you no matter what your circumstances.
